RE: APPLICATION FOR THE POSITION OF ENGINEER - ICT SERVICES -ZIC06

Dear Sir/Madam,

I wish to apply for the position of Engineer - ICT Services - ZIC06 at the Zambia Information and Communications Technology Authority (ZICTA).

I am currently an Associate Application Support Engineer at Sybrin Systems, where I support enterprise banking applications through incident management, SQL analysis, system monitoring, troubleshooting, and collaboration with cross-functional teams to maintain stable production environments. My previous experience as a Software Developer has also strengthened my technical and problem-solving skills.

I am eager to contribute my experience in enterprise IT support and my commitment to delivering reliable ICT services while continuing to grow my knowledge of infrastructure, virtualization, and cloud technologies. I am confident that my technical skills and dedication would make me a valuable addition to ZICTA.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your organization

Yours faithfully,

Walukasamu John Singogo
